

CandlewoodEquine

2016 Preventative Health Care Plan

There is an old saying “An ounce of prevention is worth a pound of cure”. This concept can be applied to keeping our horses healthy and happy. At Candlewood Equine, we believe that annual physical exams, vaccination and deworming programs, nutritional counseling, regular dental exams and early detection screening are the foundations of our preventative health care program.

Routine wellness visits allow us to not only keep up with your horse’s current health, but they also provide the opportunity to identify and address potential problems before they develop into something more serious. Early detection of disease can greatly improve the quality and length of your horse’s life.

Our goal is to provide a comprehensive health care program for your horse that will cater to you and your horse's individual needs while saving you money. With this in mind, we have developed three different annual prepaid wellness programs at a reduced cost that give you peace of mind knowing that all of your horse's wellness needs are taken care of.

Enrolling in the plan is easy and **saves you 10% or more** on all items included in the package. **As a bonus, additional services required throughout the calendar year will also receive a 5% discount** (such as emergencies, exams, consultations, products, call fees etc.). Enroll **3 or more horses** under the same owner and **receive an additional discount of \$35 per horse enrolled!**

Basic Package

- **Once Yearly Vaccines** - Eastern/Western Equine Encephalitis and Tetanus, West Nile Virus, Rhino/Flu, Rabies, Potomac Horse Fever
- **Routine Dentistry** - Manual or Powerfloat (Sedation not included)
- **One Yearly Manure Parasite Screen and Deworming Consultation** to establish an appropriate deworming program for your horse and its effectiveness. (Dewormer type will be provided at a 5% discount depending on analysis)
- **Nutritional Consult** which includes body condition scoring, review of current grain, hay and recommendations to optimize your horse’s health and longevity.
- **General Physical Exam** - to evaluate your horse's eyes, heart, lungs and body condition. If your insurance is due at the time of the health exam, we can also complete your insurance exam.

Basic Package Pricing: \$395/year (Savings of \$75 or more than 10%) Sedation and Farm Call Fees are Extra

Standard Package

- **Once Yearly Vaccines** - Eastern/Western Equine Encephalitis and Tetanus, Rabies/Potomac Horse Fever
- **Spring and Fall Rhino/Flu and West Nile Vaccinations**
- **Routine Dentistry** - Manual or Powerfloat (Sedation not included)
- **Coggins Test**
- **Spring and Fall Manure Parasite Screen and Deworming Consultation** to determine the effectiveness of the current program and identify horses where parasite resistance is a factor. (Dewormer will be provided depending on analysis at 5% discount.)
- **CBC and Equine Chemistry Screen Plus Fibrinogen** to establish your horse's baseline values. Blood testing is a simple way to assess your horse's overall state of health, as well as a way to identify early warning signals that could precede the development of serious diseases. Even if the results are within normal limits, it is always useful to have baseline values, (red/white blood cell count, liver, muscle and kidney enzymes) to compare from year to year or to refer to if there is a change later.
- **Nutritional Consult** which includes body condition scoring, review of current grain, hay and recommendations to optimize your horse's health and longevity.
- **General Physical Exam** - to evaluate your horse's eyes, heart, lungs and body condition. If your insurance is due at the time of the health exam, we can also complete your insurance exam.

Standard Package Pricing: \$665/year (Savings of \$80 or more than 10%) Sedation and Farm Call Fees are Extra.

Performance Package

- **Once Yearly Vaccines** - Eastern/Western Equine Encephalitis and Tetanus, Rabies/Potomac Horse Fever
- **Spring and Fall Rhino/Flu and West Nile Vaccinations**
- **Routine Dentistry** - Manual or Powerfloat (Sedation not included)
- **Coggins Test**
- **Spring and Fall Manure Parasite Screen and Deworming Consultation** to determine the effectiveness of the current program and identify horses where parasite resistance is a factor. (Dewormer will be provided depending on analysis at 5% discount.)
- **CBC and Equine Chemistry Screen Plus Fibrinogen** to establish your horse's baseline values. Blood testing is a simple way to assess your horse's overall state of health, as well as a way to identify early warning signals that could precede the development of serious diseases. Even if the results are normal it is always useful to have baseline values, (red/white blood cell count, liver and kidney enzymes) to compare from year to year or to refer to if there is a change later.

- **General Physical Exam** - to evaluate your horse's eyes, heart, lungs and body condition. If your insurance is due at the time of the health exam, we can also complete your insurance exam.
- **Yearly Intra-nasal Strangles Vaccination**
- **Vitamin E Blood Testing** - Vitamin E is a critically important nutrient for all horses, and supplementation is especially important for horses with limited or no access to lush pastures. Foals, pregnant and lactating mares, stallions and high-performance working horses have the greatest need for natural-source Vitamin E supplementation. A deficiency of Vitamin E may cause a variety of different symptoms and pathological changes, which may include poor immunity to diseases (recurrent cold and cough) and muscle stiffness, soreness or damage. As New England is known to be a Vitamin E deficient region, this test is vitally important.

**Performance Package Pricing: \$785/year (Savings of \$90 or more than 10%)
Sedation and Farm Call Fees are Extra.**

How to sign up? The plan runs from now to December 31st, 2016. Take advantage of the discount by signing up before the deadline of April 30, 2016. Call our office at 860-355-7770 and enroll today!

Plan Details:

- * There will be no refunds or substitutions. If the client does not wish to include the Strangles vaccine, a credit will be applied to their account. Also, if a client wishes to add a coggins test to the basic plan it will be provided at a 5% discount.
- * If a horse dies or is sold outside of the practice area while participating in the program, a prorated refund will be given. Horses within the practice area may have their program transferred to the new owner. (Any monetary compensation for transferring the plan is the Seller's responsibility.)
- * If your horse has never been vaccinated before, it will require an initial series of vaccinations with boosters 3 – 6 weeks later. These booster vaccinations are not included in this program.
- * Horses must be over 1 year old to participate in the wellness program.
- * Dental care includes a complete oral speculum exam and a routine floating. Additional dental work such as extractions, periodontal pockets and incisor malocclusion correction is not included.
- * Account must be kept current in order for discounts to apply
- * Plan must be paid in advance
